Green Job Fair February 2009

Washington Metro Green Job Fair

Feb. 27, 2009 • 8 a.m. to 6 p.m.
Westin Arlington Gateway
801 North Glebe Road • Arlington, Virginia
Near the Ballston Metro Station

This Event Will Feature:

- Employers in the energy and environmental fields with both "hands on" and policy jobs.
- Presentations on the new federal economic recovery initiatives and the potential for Green Job growth in Virginia, Washington, DC and Maryland.
- Ideas on job skills and academic background necessary for the new Green economy.

Who Will Attend:

Job seekers from a range of fields and experience — including the building design, engineering, and construction areas; new graduates in environmental and technical fields; Green product and consulting representatives, others interested in the new Green business opportunities.

To reserve a table for your company or organization at the Green Job Fair or to sponsor this event, go to www.vsbn.org.

Organized by Virginia Sustainable Building Network
in collaboration with the Green Careers Center

Welcome to the SMART Building Directory

The SMART Building Directory is the premiere resource for sustainable building products, services and resources in the Mid-Atlantic region. The SMART Building Directory is designed to make it fast and easy for you to locate exactly what you need for your residential or commercial building or remodeling product. Whether you are a seasoned designer or building professional, or a do-it-yourself homeowner, you will find what you're looking for within the se pages. Our user-friendly navigation features and search engine can save you hours of research and our information resources can teach you what defines a truly environmentally sustainable, or "green," product. So, let's get started!

COMPANY DESCRIPTION

Live Green. Save Green. Experience a vibrant new eco-friendly condominium, with everything you want right at your doorstep: a harmonious mix of homes, office & retail venues just steps away from all that downtown Falls Church offers! From the Green Roof to the renewable bamboo flooring, Live green at Spectrum w/ 15 different floorplans.

Green Features:

1. The Green Roof: Storm water is pre-filtered before introduction into the city water system; provides insulation & cuts energy costs; increases natural green space & provides scenic amenity w/out using more land & helps reduce ambient air temperature
2. Vertical urban development consumes less land than suburban horizontal sprawl
3. Central mechanical system reduces overall energy consumption
