Owner:

Arlington County Public Schools

Project Cost:

\$9,126,000

Square Footage:

84,538 sf

Cost per Square Foot:

\$107.95/sf

Completion Date:

January, 2005

Project Description:

The Glebe Elementary School renovation and expansion project includes the renewal of approximately 54,900 gross square feet of the existing building, selective demolition of 3,968 gsf and additions totaling 29,647 gsf. The finished project enhances existing classrooms with more "learner friendly" environments while providing new classrooms and support space for the Virginia Montessori Preschool Initiative.

Green Features:

The driving principles guiding the design process for Glebe's renovation include maintaining an open feeling about the school, reducing noise by enclosing learning environments, providing natural daylight to all classrooms, sustainable design concepts, minimizing the impact on the site's existing open green space, increasing the site's safety and the building's security, supporting the school's educational strategies, and providing a positive educational environment. The commitment to sustainability assists in establishing a cleaner and healthier school environment and reduces energy consumption.
